

## What will the Community gain from the project?

Fera has committed \$500,000 per Annum from the Seymour Wind Farm to a **Community Benefit Program**

These funds will be available for all **Community Projects**, From **Grass Roots Footy to Landcare and Environmental Initiatives**

Allocation of funds to projects will be **Nominated** by the **Community** through a **Community Committee**

Wind Farms do not only supply funding for community endeavours but will further boost the local economy by creating local jobs.

During construction, it is estimated that the Seymour Project will create

**500-700 jobs.**

**50-60 permanent jobs** will be created during the 30+ year operating period of the project.
